[illegible]

A botanical illustration of a plant, likely a species of fern or a similar ancient plant, rendered in a medieval manuscript style. The plant features a large, flat, brown, dotted seed head (resembling a sori) at the top of a green, segmented stem. The stem is composed of several overlapping, curved segments. The base of the plant shows a thick, red, fibrous root system. The illustration is set against a background of parchment with handwritten text in a medieval script, possibly Latin or Old English, which is partially obscured by the plant's drawing. The number '93' is visible in the top right corner of the page.
